UNFIT FOR HUMAN HABITATION.

Sanitary Board Prosecution.

The owner and tenant of a room at No. 2, Tsui An Lane, were charged at the Magistrate's Court to-day with using a room which the authorities had declared as being unfit for human habitation.

Mr. E. D. C. Wolfe prosecuted on behalf of the Sanitary Board, of which body he is the President.

He said he summoned the tenant for occupying the premises and the owner for letting it. On June 28th an inspector found four persons sleeping in it. There were three beds in the room. The room had been declared unfit for habitation, and some time ago was closed by order of the Board.

One of the defendants, the tenant, said that he was merely the watchman. He possessed the key. He did not have to pay any rent.

Mr. Wolfe maintained that no one had a right to live in the room until certain alterations had been effected.

After further discussion Mr. Wolfe withdrew the case against the man who said he was the watchman, but he did not withdraw the charge against the owner whom he thought must be to blame. But he did not press for a conviction. He would be satisfied if the magistrate made defendant guarantee to turn the people out and to lock up the premises.

Mr. Melbourn bound the owner over in the sum of \$25, personal bond, to come up for judgment if called upon. The owner promised that he would not allow the people again to enter.

The Magistrate has frequently to deal with cases in which gangs of Chinese are found in opium dens. This morning 16 men, who were found in one house, appeared to answer a charge. It was stated in the evidence that when the police made a raid the men attempted to escape. The leader of the gang, who was attempting to make off, grabbed a handful of 20,000 dollars, was shot, and three months imprisonment, another defendant, 11, 6 months, and the remainder, 22, 3 days.

**CURING DISEASE
BY PROPER FOOD.**

Every thinking man must be impressed by the fact that the modern doctor is relying less and less on the administration of drugs for the cure of the ordinary illnesses of life, and more and more on the selection of proper food. As a matter of fact, this idea is not so new as it seems, for it has been advocated for hundreds of years. For instance, Hippocrates, who was called the "English Hippocrates," and lived in the seventeenth century, wrote: "There are not a few diseases which can be cured by the use of proper diet alone." In treating diseased and diseased conditions by food, there are two facts to be observed. The first is the elimination of foods which are found to be injurious to the individual, and the second is to supply him with food which he can digest with ease and assimilate without trouble. Food which will nourish him so completely that his weakened system will rapidly gain strength. Moreover, food, being of a bland nature, will put no strain on the organs of excretion, whose mission is to keep the blood pure.

As to such foods, milk takes a high place. There are, however, grave drawbacks to its use. In the first place, it necessitates the taking of a quantity of fluid which, in itself, may greatly disturb the digestion. In the second place, it is by no means easy to get pure milk in hot countries. In the third place, in order to preserve the milk it is frequently mixed with chemicals, like boracic acid. This is exceedingly liable to cause indigestion in adults and certain to do so in children, who many people find it disagrees with them in other ways.

MANY DEVICES FOR CURE.
Many methods have been devised for overcoming these difficulties, and dried milks of various kinds have been recommended to be used.

It is constantly found, however, that the sufferer in warm climates need something more than milk products to sustain their health and strength. The reason is that their nervous system is constantly affected through the too rapid using up of the phosphorus salts which play so powerful a part in maintaining the health of the nervous system.

The pre-eminent need of such people, and, indeed, of most people who live in hot countries, is a food which combines the nutritive qualities of pure milk with the energizing and nerve-building properties of phosphorus. There is no such food, however, even as almost quite useless if merely mixed together, for the ordinary preparations of phosphorus soon disturb the digestion and make the sufferer's last state worse than his first. The phosphorus must be in what doctors call the "organic form," and it must be chemically combined with the milk in order to be easily digested and to produce its best results.

It is in this form that these elements exist in Sanatogen which, to quote an article published in the "Lancet" and "The Medical Press and Circular," "is a hundredfold, while it is, 'the wonder' brought about by it is no less manifold than amazing, and have been testified to by leading physicians whose names are as household words in many countries of the world."

THE BEST METHOD.
Sanatogen, in fact, has come to be recognized by the best doctors everywhere as the greatest tonic food in the world, the only preparation on which complete reliance can be placed to build up the tissues which are destroyed in many diseases, and thus to restore the lost weight which results from them. In order to do this, Sanatogen must first restore the blood to its best possible condition, for every part of the body derives its nourishment from the blood, while, at the same time, it revitalizes the nervous system. It is thus evident that Sanatogen's power is not limited to one organ; but, by influencing the digestion, the nerves, and the blood, it exercises a wide control over various conditions, and can ameliorate and cure a large number of symptoms.

Testimony to this power is further borne by *The Medical Press and Circular*, which says: "Sanatogen is readily absorbed by the stomach and has a most beneficial effect, shown by a steady increase of body weight and of muscular strength and energy. At the same time, the colour is brought back to the patient's cheeks, which is due to a specific increase in the number of red corpuscles. Moreover, Sanatogen's feeding and sustaining properties are invaluable in the complete loss of appetite that often spells danger in attacks of influenza. To nourish the patient then becomes a matter of life or death, and under those circumstances, the supreme importance of highly nutritious and easily digestible food in small bulk is recognized. Sanatogen further supplies the much needed nutrition to the brain cells as well as the necessary filip to heart, stomach, liver, and other organs of the body."

Write for a copy of a most interesting booklet "The Art of Living," by Dr. Andrew Wilson, which will be sent free to all mentioned in the paper, and send name to A. Wulff and Co., 8, Kinkling Road, Shanghai.

Sanatogen can be obtained of all chemists.

CHINESE ENGINEERING AND MINING CO.

An extraordinary general meeting of the Chinese Engineering and Mining Company, Limited, was held on 7th inst. at Winchester House, London, E.C., for the purpose of considering a resolution approving of the arrangement entered into between this company and the Grand Mining Company of Panyang and Lancow (the Lancow-Mining Company) approved by the British and Chinese Governments, as embodied in the preliminary and supplementary agreements, dated January 27, 1912, with the amendments set out in the memorandum from the British Minister to the Wei-wu-pu, dated March 15, 1912, and authorizing the board to give effect to such arrangements. The secretary (Mr. Alfred W. Berry) having read the notice convening the meeting.

The Chairman said the business before them was of a momentous character, involving as it did a complete recasting of the affairs of the company. The essential provisions of the arrangement were set out in the circular accompanying the notice of meeting, but he proposed to go briefly through the "three documents" which he then proceeded to explain the clauses of the agreements of January 27, 1912, as also the memorandum above referred to. Continuing, he said: "Briefly stated, our company and the Lancow Mining Company will keep their separate existence each having its own constitution and its own board of directors. Each company will retain the ownership of its properties, and will deal as its shareholders may think fit with the proportion of profits coming to it from the combined business. Neither company will have the right to mortgage its properties without the previous consent of the other company, and both companies undertake not to take up any new enterprises, these being reserved for the Lancow Mining Administration. The management of the properties and business of both companies in China will be in the hands of the Lancow Mining Administration, which will be an association without corporate existence, formed for the express purpose. This arrangement is a permanent one. It can only be terminated by the Lancow Mining Company purchasing the property of our company, but that purchase can only be effected at a just price, to be agreed upon by both companies. In effect, therefore, it can only be done by mutual agreement. In the working of the administration, there will be three authorities, i.e., the chief manager, the deliberating board, and the director-general. The effective control will be in the hands of the chief manager, who will be our present agent and general manager, Major Nathan. He will have control of all the business affairs and the appointment of the staff. The deliberating board will consist of six members, each company having the right of electing and removing three of such members. In this way both companies will be equally represented, but it has been agreed that if any question that may arise the deliberating board cannot come to a decision on account of equality of votes, one of the members representing the company which has undertaken the issue of the larger number of debentures shall have a casting vote. Inasmuch as the issue of debentures will be undertaken by our company, we shall always have the casting vote. The deliberating board will have power to discuss the affairs of the administration's business, and to report thereon from time to time to the boards of the two companies. It will also have the right of appointing the chief manager, subject to the arrangements which have already been stated. The powers, therefore, are placed of supervision and inspection rather than of control. A director-general is to be appointed by the Chinese Government, at the request of the Administration. His functions are restricted to inspecting and giving assistance to the working of the business, and reporting to the Chinese Government, and he is not to interfere with the management of the company. We have now, therefore, the first director-general, Mr. Nathan, who

Tai, the son of Yuan Shih-kai, the President of the Chinese Republic. The present Chinese Engineering and Mining Company will go into liquidation, a new company being formed under the same or similar name to acquire the undertaking of the present company.

THE NEW COMPANY.
The capital of the new company will be £1,000,000 sterling in £1 shares, so that the shareholders of the present company will receive share per share in the new company. The new company will create debentures to the amount of £1,200,000 for the purposes already mentioned, which are shortly as follows:—The redemption of the first and second debentures of the present company, amounting together to £480,000; on the terms provided in the debentures, either by exchange for the debentures of our new company or by being paid off in cash. The provision of £200,000 working capital for the Lancow Mining Administration. The payment of £1,000,000 to the Lancow Mining Company to provide for its debts. A further payment of £500,000 to the Lancow Mining Company. The payment of £500,000 to the Viceroy of Chihli as representing the Chinese Government. The payment of £1,000,000 to Chang Yen Mao in full satisfaction of all claims in connection with the present company and its affairs. The payment not exceeding £1,400,000 in respect of other liabilities in China, and the cancellation of certain existing contracts, which we are advised would operate to the disadvantage of the new business. The premium on the redemption of existing debentures and the commission and charges for placing the debentures of the new company. These debentures will be secured upon the properties and assets both of the new Chinese Engineering and Mining Company and the Lancow Mining Company. The net profits of the Lancow Mining Administration are to be divided up to £300,000 as to 60 per cent. to our company, and as to 40 per cent. to the Lancow Mining Company, which would be equal in our case to £180,000. The profits in excess of £200,000, as well as profits arising from new business undertaken by the Administration, are to be divided equally between the two companies. The definition of "net profits" you have already heard under Clause 3 of the first agreement. The advantages of the arrangement which we have now placed before you seem to us to be obvious. All disputes and discussions with the Chinese Government relating to the formation and to the rights of our company are terminated, and we are enabled to expect that the operations of the combined business of the two companies, instead of being hampered as we have been hitherto, will receive the full and effective support of the Chinese Government.

The arrangement disposes of all contested claims against our company in China. It substitutes co-operation for the severe competition which has been waged between the two companies for some past. It removes the company's affairs from the sphere of Chinese politics by an international act. It gives us security and permanence, and it leaves us free, in conjunction with the Lancow Mining

ENO'S 'FRUIT SALT'

A HOUSEHOLD REMEDY FOR

All Functional Derangements of the Liver,
Temporary Congestion arising from Alco-
holic Beverages, Errors in Diet, (Eating
or Drinking.) Biliousness, Sick Headache,
Giddiness, Oppression or Feeling of Melan-
choly, Vomiting, Heartburn, Sourness of
the Stomach, or Constipation. It is a
Refreshing and Invigorating Beverage,
most Invaluable to Travellers, Emigrants,
Soldiers, and Residents in Tropical Climates.ENO'S 'FRUIT SALT' assists the Functions of the Liver, Bowels, and
Kidneys by Natural Means: thus the blood is freed from poisons or other
harmful matters, the foundation and cause of Biliousness, Fever, Head
aches, etc. It has the power to 'wash' the system, and to 'cleanse' the
stomach, and is a valuable remedy for all the above-mentioned ailments.
CAUTION.—Examine the Labels and see that it is marked ENO'S 'FRUIT SALT'.
Beware of cheap imitations. It is the most effective form of Natural Purification.
Prepared only by J. C. ENO, Ltd., 'FRUIT SALT' WORKS, LONDON,
E.C. 4, Reg. by J. C. ENO'S Patent.
Sold by Chemists and Stores everywhere.LIFE WITHOUT HEALTH IS LIVING DEATH.
VETARZO BRAIN AND NERVE FOODThis remarkable compound, the latest discovery of modern times, is without a peer in all cases
of nervous, muscular, or brain power, whether induced by worry, overwork, dissipation, or other
causes. It is a powerful tonic, and a most effective remedy for all the above-mentioned ailments.
It is a powerful tonic, and a most effective remedy for all the above-mentioned ailments.
It is a powerful tonic, and a most effective remedy for all the above-mentioned ailments.WITHOUT PURE BLOOD HEALTH IS IMPOSSIBLE.
VETARZO BLOOD MEDICINENever before was there anything like it, nor can its marvellous properties ever be equalled in
all cases of impure blood, or other impurities of the blood, whether caused by
poor diet, or other causes. It is a powerful tonic, and a most effective remedy for all the above-mentioned ailments.
It is a powerful tonic, and a most effective remedy for all the above-mentioned ailments.
It is a powerful tonic, and a most effective remedy for all the above-mentioned ailments.

THE CHINESE LOAN.

The Views of Mr. Kair Hardie
and Mr. Ginnell.Mr. Kair Hardie asked the Secretary of
State for Foreign Affairs whether he had
any official information showing that the
group of bankers negotiating the Chinese
loan at Peking were seeking to force the
Government to borrow £20,000,000, al-
though only £10,000,000 was needed, and
whether he would instruct the British
representative at Peking to aid the Chinese
Government in resisting the efforts of the
international financiers to place China under
such financial obligation to Europe as
would seriously threaten her autonomy.Mr. Acland: The initiative in this
matter lies with the Chinese Government,
and only that amount which is actually
requested by them will be advanced by the
financial groups. Far from the autonomy
of China being in any way threatened by
the conclusion of the loan, its whole ob-
ject is to enable her to establish a stable
administration and to consolidate her
position, and no attempt is being made to
force China to borrow anything. The
position is that, if money is borrowed,
it should be on proper conditions.Mr. Kair Hardie: Do I understand from
the reply that China is asking for
£20,000,000, or that the international
bankers have attempted to compel China
to accept this sum?Mr. Acland: This sum was asked for by
China, to be spread over five years. It
will be only advanced as required and as
security is available.Mr. Ginnell asked the Secretary of State
whether he had any official information
showing that the six-power group who
propose to finance China with the support
of their respective Governments refused to
accept the Chinese terms for a loan of less
than £20,000,000, and that the Chinese
wanted only a much smaller sum, and
agreed to the conditions in substance save
as to the gross amount, and, if so, whether
His Majesty's Government would continue
to support the group in this forcing China
to grant them a monopoly in Chinese
finance.Sir E. Grey: The difficulty is not about
the amount but the conditions on which
any loan, small or large, can safely be
made. There is no intention of forcing
China to borrow more than she wants or to
borrow at all if she does not want to do
so.Mr. Ginnell said it was not alleged that
this was the intention of the Governments,
and asked whether the right hon.
gentleman was aware that there was any
such intention on the part of the financial
group.Sir E. Grey: I am not aware of any
such intention, or indeed of any very
great anxiety to lend money under present
conditions at all.Mr. Ginnell also asked the Secretary of
State for Foreign Affairs whether he was
aware that the only interest of Russia and
Japan in the finance of the six-power group
was their power to veto the employment of
foreign capital in the Chinese territories of
Mongolia and Manchuria, except under the
exclusive control of Russia and Japan
respectively in those spheres of their re-
spective pretensions; and whether Chinese
interests in those territories were to be left
as the mercy of those foreign financiers
whose interest did not go beyond profit
sharing underwriting, floating the loan,
and manipulating the exchange market
against China.Sir E. Grey: The conditions of the loan
agreement are at present the subject of
confidential negotiations, but, as has al-
ready been stated, the Government con-
tinue not to give their approval and
support to any agreement which does not
make the real interests of China a primary
consideration.

"MABON'S" FAREWELL.

Mr. W. Abraham, M.P. ("Mabon"), the
veteran miners' leader, took an affecting
farewell of his colleagues of the South
Wales Miners' Federation at Cardiff
recently when he took the chair for the
last time as president of the annual confer-
ence. "Mabon's" retirement is due, to
ill-health.As he said in his farewell, he has been
officially connected with the miners' orga-
nization for forty years. For thirty-five
years he has been the leader of the South
Wales miners. He has been their M.P.
as member for Glamorgan, since 1885.The conference unanimously elected Mr.
Abraham an hon. member of the Executive
Council.The Nassik diamond stone, which
at times considerably interests the public,
is now being shown at Simla by Messrs. Garrard
and Company. It constituted part of the
booty obtained by the East India Company
on their conquest of the last independent
Peshwa Chief, Bajirao, in 1818. The
stone afterwards passed into the hands of
the Marquis of Westminster, who wore it in
the hilt of his sword when attending Queen
Victoria's first Drawing Room.

AN OPEN SECRET.

MANY ask the question for the continuous
and increasing demand for Chamberlain's
Colic, Cholera and Diarrhoea Remedy.
The secret is that it never fails to give
relief. The middle-aged man, who is
remembered as the remedy given them by
their mothers for the cramps, colic and dyspepsia
of their early childhood, and is found to
be a specific cure for such ailments in old
and infirm. No remedy has ever been
indicated that is so true for the relief of
sufferers. For sale by all Chemists and Store-
keepers.
